Dr. Edward Christian
8012 Buist St.
Philadelphia, PA. 19153

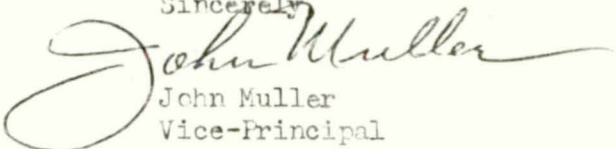

Dear Dr. Christian:

It was indeed a pleasurable and informative experience to have you at Pinkerton Academy, and to host such an effective presentation. On behalf of the staff and student body, I would like to extend our compliments and our appreciation.

I think the best testimony to the effectiveness of your program was the overwhelming sentiment to "let the juniors and seniors see this!" shortly after the 9th and 10th graders had viewed it. As I said before you left, we were watching certain people in the audience during the presentation, and their reactions left no doubt in my mind that the "right" people were affected. I'm certain that a number of people were deeply impressed by what they saw and heard. I'm only sorry that more students in more schools did not have the opportunity to witness your program.

Once again, thank you for coming and for offering our students a most worthwhile educational experience.

Sincerely,

John Muller
Vice-Principal
