

TRI-STAR-TRI-STAR-TRI-STAR

I hope this letter finds you still enjoying good health, experiences spiritual fulfillment from your many important endeavors in this country and elsewhere in the global environment, and looking forward to remaining as busy as ever. I hope the same holds true for your wife all of your children ; grand-children and grate-grand-children as well.

George I have written some important letters during my journey but this one is the most important of them all. Its about Tri-Star Oil Company a new client that I have agreed to represent, who has agreed to compensate me to the tone of \$200,000,000,00 (two hundred million dollars) if I my efforts on his behalf results in his being able to with draw funds from a multi-billion dollar cluster account, that he and several others have on deposit a Chase Manhattan National Bank in New York City.

As of this writing his attorneys have not provided me with, details, nature, etc., of the problem. What they have said to me is this; During the past year Mr. Tinger, the -----of Tri-Star, has made several attempts to draw down funds from the account in question, and that top officials at Chase have refused his request.

I got involved because I know you and further because you are a major stockholder of chases' stock. And because we are old friends and they were encouraged to approach me and see if I would ask your assistance with their problem.

This could be a matter that you would rather not be involved in especially if answer to the question "what s in it for you?" isn't obvious. George to be frank, unless you can think of something that hasn't crossed my mind, there may not be anything in it for your directly. But given that you love your son, and who is now serving as America's 43rd President, then there is a grate deal in it for him.

Let me explain, George, unless something totally unforeseen and or unforeseeable should occur between now and Nov 2, 2004, the day that Americans by the millions go to the poles to elect our next president, the coming election like that of the year 2000 is going to be a cleft hanger too. With the nation being split right down the middle 49% to 51%, and continue that way its any body guess what the outcome will be..

The thought of another clift hanger elecion for the presidency, excites me --to no end, because given my age, 79, and the state of my health, there is reason to believe that this one could be my last .. My health does indeed fall far short of being robust. However, if I take a short mid-afternoon nap,, I can still put in

a reasonably active 8 hour day. therefore I am a long way from being feeble. Because this could be my farewell effort, as far as being involved in a national campaign I want to spend the coming year on the campaign trail. Thus, I want to be out there on the hoisting, on the front line, in the trenches, doing my thing, and thus my utmost to assure that #43 is elected to a second term.

I serious am I? I have already planned a 36 cities tour, across the country to each city that houses a Federal Reserve Regional or District Bank. Thses are the cities where I will conduct a 3 day seminar/workshop, that I have entitled Ready-Willing-&-Able.

Ready-will-and able, is 3 day event, designed to render American's citizens Ready-Willing-&-Able, to do what must be done both individually and collectively to do the following; keep America Free, Strong, Secure, Stable, Prosperous and Assured of a promising Future.

During these 3 day events, I drive home the following truth; and that is to achieve the factors sighed in the above sentence,. America must continue to be the world's number one economic/military super power, and if not that then certainly no less than first among equals. And of course, to achieve either of the latter, we must continuously develop a workforce that world class and seconded to none, and of course that rest on our willingness to continuing to further establish education and training systems that world class and second to none. That will be a priority requirement throughout the entire 21st Century a beyond.

George I did my first R-W-&-A seminar/workshop in Denver Colorado, shortly after I accepted a short term assignment, as a professor at the Denver University Business College. Sept. 1991. Its impact on the students was such that I started doing it all over the country and receiving rave notices each time I did it. When #43 became our president it became obvious that R-W-&-A' s mission, goals, and objectives fit hand and glove with #43, domestic agenda, namely his Leave not child behind, his Low and moderate income home ownership policy and by all means his Faith Based Initiative Agenda.

Now let me shift to economic circumstances and votes for a moment; The Black Christian and White Christian vote is going to be big, big, big, if not the deciding factor in this coming election. And as to the

Black vote, there are 14 million African Americans living in the above mentioned cities that I'll appear in during the 36 city tour. And the good news is this; The 2000 censuses indicates, that of the nation's 36 million African Americans, 24 million attend church 2 to 3 times a month. That means that a significant number if not the vast majority of the 14 million that live in the above 36 cities can be reached through the various church leadership and church congregations. Remember, church congregations are the ones that sponsor my 3 day R-W-&-A, Life Management Career Development Seminar/ Workshops.

George you should know this, that when me and my staff conduct the seminar/workshops, on Friday, and Saturday, I usually end up delivering the 11:00 O'clock Sunday morning worship service. Because of the local media coverage I get on Friday and Saturday, its not uncommon for a large number of white Christian church congregations come to hear me preach.

Oh! yes I forgot to tell you this; I am a licensed minister. I became one in 1967. However, instead of accepting a congregation to pastor, I re-entered the political and used my speaking skills, and spiritual energy, to make good things happen in the governing arena. And guess what? The Affirmative Action Enforcement Policy is one of the good things that I am happen at the national level.

And that incidentally is one of the good things, that causes people to come in droves wherever I appear. They want to hear my views about its benefits on the one hand, and what can be done, in the next 25 years that the court, to no longer need it any loner on the other. In the recent Michigan Law School Case. Sandra Day O'Connor, speaking for the majority, in that 5 to 4 decision, " The court Expects in 25 years

.....
Since that ruling was announced not a day goes by, without my being ask, where do we go from here, what do we do now, how can we do what must be done, during the next 25 years to no longer need it any longer? George, those question were tayler made for my R-W-&-A Seminar/workshops. In fact it seems as though, I am clearvoient and I know that this hour in our history was coning. Therefore, I developed it ahead of time so I would be ready when it arrived

Be that as it may, George because this could be my last attempt to help elect a president, I want to make my contribution my way. Thus, I have no desire whatsoever, to be involved with the campaigns official operations. Why? Because I know my value, my following and my constituency better than anyone, Therefore I want to keep my distance from his official organization, and not only that but organized and underwrite it with my money. Money, that I have earned on my own. You read that right, as expensive as it will be, the staffing , traveling, publishing training manuals, etc., I want to fund the entire 36 city tour with my funds, money that I earned on my own and that belongs to me.

This is where you come and Tri-Star come into the picture. Tri-Star has billions of dollars in cluster mentioned above in a account on deposit at Chase Manhattan National Bank in New York city. And as I said above, during the recent past, they have tried unsuccessfully to draw down as significant amount of the funds and deposit them a account at Wachovia National Bank. However for reason , they have yet to be explained to Tri-Star's satisfaction,, they have been unable to do so. And according to Tri-Star's law firm and as the late Winston Churchill would say they have not only ran into a iron curtain but a stone wall of silence to boot.

During these repeated efforts, Tri-Star's attorneys, who do business with Pacific Rim Development Group LLC, a commercial and residential development firm, informed them of our relationship, with your and suggested that since you are a major stakeholder, at Chase Manhattan National Bank, its possible that you might appeal to the Banks, Chairman of the Board and/or CEO, if they are not the same to resolve this matter and allow their client to withdraw his billions from the cluster account a deposit it a Wachovia.

Although the insist vehemently that going to court with this matter is the very last thing they want to do, my client's attorney's have informed me that should I be unable to assist them, then the minute that's evident, they'll go to court and file a action against Chase and let the court settle the matter. Although I haven't seen their brief and have no idea whatsoever, what their charges will be, I do know this;

The attorneys in question insist, that from top to bottom, the executive suits to the lowest persona on the firms managing table their charges will prove super embarrassing to Chase. Again, I have no idea what's in their brief, I am simply sharing with you what they have shared with me. Having said that now comes the part that stimulated my interest and cause me sign a letter agreement agreeing to assist them with this problem,

George, along with a standard retainer payment our letter agreement includes a sentence regarding a contingency fee.. It states this: that if my efforts, results in Tri-Star, being allowed to withdraw its money from the cluster account in question, Tri-Star, will pay me \$200,000,000.00 (two hundred million dollars) for my services. George that's the money that I'll used to fund the above mentioned 36 tour that I am in the process of scheduling.. Its goes without saying with that amount I'll suddenly become not just everyday garden verity rich, I'll actually be wealthy.

Can you imagine a 79 year old Black man, and a life long RRepublican to boot, and to add insult to injury the father of the nation's Affirmative Action Enforcement policy as well, earning \$200,000,000,00, and thus becoming wealthy at the ripe old sunset age of 79 ? . If that doesn't prove that America is in fact a color blind society, and doesn't practice age discrimination, pray tell me what will.

George, the very minute Tri-Star, issues me my check, 72 hours after the draw down the amount their seeking, they pay me my contingency fee. At that point I'll open a parent account at chase. Then I'll have a Chase investment advisors, assist me in establishing the following trust accounts. Of he total amount, \$200,000,000,00, I'll deduct 30% and divide it as follows; I'll deposit 10% in a account for me and Bernice, a second 10% for our direct off-spring, (we were both married before w were married and have off-spring from those unions, and the final 10%, will be deposited in a trust account, for our grandchildren, grate-grandchildren and grate-grate-grandchildren.

Having done the above, I'll contribute the remaining 70%, to FOAFU. And immediately began making arrangements for the 36 city tour that I mentioned above. Incidentally my preliminary Plans call for

establishing the national office for FOAFU in the Kansas City metropolitan Area, a regional office in Seattle, Washington, and another in Washington, DC. Why those particular cities, Because I have established a positive reputation in those communities during the peak performance years of my life's journey. Therefore, I can look forward to not only getting fair press but good press for FOAFU in those cities.

George, within less than a month after those accounts are open, I will have hired a start-up staff, to jump-start the project. For example, if the \$200,000,000,00 is in my position, by or before mid-December 2003, I'll be ready to get the show on the road when January 2004, ML-Kings Birthday Month arrives. The next month is Black History Month, February 2004. When it arrives I'll will be and continue to be all over national TV, telling the story of FOAFU, and its efforts, to implement the president's faith based agenda, and the other components of his humanitarian agenda. His, Leave no Child Behind and his Low and Modern Income Home Ownership Policy. And guess what again? My nation wide involvement won't cost him or his campaign a single red penny, nor will my organization, need any direct or indirect from his campaign organization.

We, me and my group will be on our own, doing our thing with our own resources, at no cost to his campaign, the RNC, GOP, elected officials whatsoever. We'll be a greater asset to them than can be for us.

George, when I accepted that account, I assumed that everything is on the up and up, As of this writing I know of nothing that would be embarrassing to either you or me personally. I not only respect you and your family far too much to cause you any problems. I value our years of working together, and the friendship that has developed over the 3 decade period much too much for that.

Therefore, if it's at all possible do what you can to help me with this one. If you can help me you can be assured that you won't regret it. It would be wonderful if I could hear from you on this matter immediately. And if not that then before Friday December ---, 2004

I can be reached at the following. Home phone 202-554-0573. Fax 202-488-9123. E-,mail –

George irrespective of weather, you decide to assist men or not please call me the very moment you have made your decision.

Respectfully .

P.S. Let me repeat, this coming presidential election shows all signs of being another cliff hanger. Therefore, the sooner I am out there, the better his chances of increasing his vote, with the religious community as a whole, and the Black Community in particular.
