

MODERN DAY DAVID & GOLIATH

On February 1, 1999, the last Black History Month of the 20th Century, Black Voices publish the result of a national survey that was concerned with the following; who were the individual that the nation's 38 million strong African American Community considered the 100 most Influential Black Americans of the 20th Century. And what contribution did each individual make to earn (deserve) that distinction.

Included in that Group

Arthur Fletcher was ranked number 18 among that distinguish group of African Americans. Why? Because he's is recognized as the father of the nation's Affirmative Action Enforcement Policy Movement. To be precise the citation beside his name and picture stated the following: ...**Arthur**
"Fletcher...Developed the Affirmative Action Policy, which helped achievement many gains for African Americans, Women and Others".

At the time that statement appeared in print the following is true: a mere 36 of those named were still alive, and of the top 20 only 4 are still alive. And guess what? Dr. Art Fletcher, is number 4 of that group.

Something critical to consider

Regardless of race, gender, ethnic origin or physical impairment, if you are a history buff, and realized the value of reading the facts as they were experienced by the original source, Then these next few sentences should be of special interest to you. Incidentally the same is true if you are one of the 50 million workers in the nation's labor force and or one of the -----million women and minority small business entrepreneurs owners who because successful business in the 70s, 80s, or 90s, this next sentence applies to you also.

Equity Warriors Ranks are Thinning

As these words are being written the WW-II Generation's Civil Rights Warriors are in the 70's, 80s and older. Consequently their ranks are thinning every day. On June---, in a 5 to 4 decision the United States Supreme Court ruled that because of specific compelling state interest, the Michigan University Law School's Race Based Preference Admission Program did not violate the constitution.

However, in rendering that decision the majority further agreed that the preference sanctioned in the Michigan Law School Case should not be a germinate fixture by including this 24 word sentence; “ **The court expects that 25 years from now, the use of racial preferences will no longer be**

necessary to Further the interest approved today” I interpret that sentence to mean the following; that the court had put the Affirmative Action Enforcement Policy that I consider my personal footnote in history on parole for 25 years or until June 2028.

However, what that means is this; that the 10 Anti-Affirmative Action Think Tanks and right-wing, Non-profit Law Firms will commission themselves to serve as the self-appointed right-wing-conservative, posies, sheriffs parole offices, etc.

What will their wealthy funders fund them to do? Serve as anti-Affirmative Action Vigilantes operatives with one mission and one mission only to perform. Find and High-light the slightest program flaw, minimal infraction, or clear violation contained in any race based Affirmative Action program. And upon finding one use it to justify haling each and every individual managing that program before the courts again.

What is the right wing’s ultimate objectives? Their primary objective is to finally have the court, once and for all, declare the process unconstitutional and thus illegal. However, their fund raising records contains fact that proves

that opposition to affirmative action includes 49% to 51% of the nation's households.

Therefore, their fund raising strategists know that if they structure their appeals for contributions to underwrite campaigns,

state, regional and national, in opposition there

In the meantime, however, since opposition to Affirmative Action attracts contributions from every segment of the nation's private, public and independent plus every class, no color, blue color, gray color, and various white color level that constitutes its their number one nation wide fund raising strategies, (operation).

Therefore, they'll continue to employ it keep employing opposition to such programs. In doing so they'll raise hundreds of millions of dollars annually, opposed Affirmative Action. But that won't be all! They'll employ the funds from their anti-affirmative action fund raising operations to help
