Nationally famous anti-drug educator
and noted pathologist

If you want your child off drugs. If you want your child to stay away from drugs.

THEN BRING HIM TO SEE EDWARD CHRISTIAN'S SLIDE PRESENTATION

If you want to know what to do about the drug epidemic that's destroying our country.

THEN COME AND HEAR EDWARD CHRISTIAN

Edward Christian, a famous coroner from Philadelphia, has done investigations for over six years into drug-related deaths. His slides are real-life case studies of youth and adults who started out with marijuana and other "soft" drugs and ended up on a slab. He has given his presentation to over 15,000 students and 2,000 adults across the country.

If you want to save our country from this epidemic, bring your family and friends to see and hear leaders from the National Anti-Drug Coalition inform you on what you can do to change this national disaster.
