City Council

Dear Art:

I was away for two solid months back in Washington, D. C., working on the Nixon campaign. Therefore, I was absent from Seattle and our Washington State during the more intensive part of your campaign.

Needless to say, I am keenly disappointed that you did not win, but I am cheered by the splendid race you ran. You have much to offer, Art, in the political field, and I earnestly hope that you will not let this slight set-back deter you from further efforts along the political line. I lost to Senator Magnuson in 1950 by a small margin, but I never let that defeat bother me one little bit. Please don't let this this set-back bother you either.

With kind regard, I am

Sincerely yours,

W. Walter Williams
