Mr. William "Bill" Clay, Congressman  
2306 Rayburn Building  
Washington, DC. 20515

Re; My recent visit with you to discuss the USPS, Inspector General Funded, National Diversity Benchmark Study Contract and to request your assistance in carrying out the project.

Dear Congressman Clay;

I am writing to thank you personally for meeting with me and allowing me to explain the details of the Benchmark Study Project that I am involved in with Research Assessment Management Inc., (RAM).

I especially want to thank you for arranging my meetings, in your office, with other members of the Congressional Black Caucus. Although only a few days have passed, your efforts are already bearing fruit..

In so far as St. Louis and the State of Missouri is concerned, I have reasons to believe that the project's research team might want to interview the executive who is managing the procurement program for the Anheuser-Bush Beer Company. If that proves to be the case, I will appreciate any assistance you might give in arranging interviews for them.

Thanks again for showing such deep interest and concern about the objectives of this particular Benchmark Study Project. I'll take you up on your willingness to assist us further. Should that be the case, I'll call your office immediately. I'll also be specific about the assistance that the project's research team needs.

Thanks again for being so helpful.

Respectfully

Arthur A. Fletcher
