

Q. What?

Is there physical evidence that supports this belief? If so what is it? Are results of the actions based on that belief.

— Democracy is a Reform system of Government

— Our Basic Defiance is Chronic. Because it's chronic, it presses off from the adult generation to their offspring, to the on coming generations in perpetuity.

In other words, racism ~~is~~ is going anywhere in a way. It's going to be with us for generations untold.

If refused to be senile were there is the issue. I have seen too much change that amounted to progress.

WWI

on both sides ^{of} the
conflict

Because of the massive manhood
that occurred throughout war, it so
much so, that America was forced to
utilize Black Troops, in combat to
prevent the Germans from
carrying the day & winning the
war. Realizing that Treaty Black
Troops, upon returning home & putting
their feet on American soils, expecting
to be welcomed as heroes, had instead
encountered the same indignities as American
categories with no differing responses
based on race, creed, or skin
colors. How wrong they were!

To prevent that those expectations
from arriving truly at all, American
Congressional Democrat, the KKK, took
things in hand, and made the
indignity of AA, a festive occasion
for white Americans to enjoy
with its parades, & Black Americans
to fear, beyond limits.

SCENARIO - CONCLUSION! We didn't
do it then, when time was not
the critical factor that it
is now. So what are we do-
ing now? What do we insist
on making the same mistakes
again & justifying the Nation's

only plain, but as its Fate,
but impossible for the rest
of the world to ignore.

On the outside looking in

The view from the outside looking in it appears that were successful & the US Reg relations are at hand the US is doing just fine. If I am right, then the question is this: what's in it for America what benefits, Does the US deserve
