Not House arrest...

I make a difference
between Good behavior
parole and House arrest
because our Anti-ADA
Advogaris, wants to send
chewy pro-ADA types &
drive them to stay onto

The individual or individuals, with all of the Contrived PR, get all of the credits for being the change agents, but when the dust clears, & the results finally emerge, the facts are this: The local leadership, coupled with his or her, loyal local followers made it happen.

All politics is local. The game is to get for progress.

One community's leadership can be derailed in a series of opportunities, & not move or even a inch.

While another leader can land in an environment brackish of mere hope, let alone a blue-print or strategy, for progress, and build a Manchester Fit for a King.

How can that be? It's the leader(s) stopped.

Bankrupt of Corporate Leaderships:

As the 21st Century get underway in earnest, it now appears, that the Nation's 38 million strong is bankrupt of Quality Leadership.

We are flooded with Super Corporate Spokespersons, Male & Female, at all levels, National, State & local level leaders, & not so.

Timothy was in his side.
A storm of controversy, emerged in a sea of doubt.
But the world goes on.
It keeps turning & turning
& rolling & rolling along that's
the Credo Ready or Not.
