

## A APPROVED WORKMAN FOR GOD

BY  
ARTHUR A. FLETCHER

**During my second year in college, the spring of 1947, I knew that before my journey ended I would spend my final years working in the field of religion. I felt that way because I truly enjoyed the philosophy, comparative religious, courses that took in my sophomore year, and the sociology, education and training psychology courses that I took in my junior and senior years.**

Incidentally Mohandas K. Gandhi, the world renown Hindu spiritual leaders was assented during my Sophomore year. This event left an indelible mark on my character. Why? Because I took courses in political science form a professor who had gotten her PhD., in political economics from the London School of Economics. And while attending graduate school in England, she had the unforgettable opportunity of hearing Gandhi speak in person. Hearing him was a experience she obviously never forgot.

As a results, she gave extra credit to each member of the class who read any materials about Gandhi's religious and political life. Since I needed all the extra credits I could get I read everything I could get my hands on concerning his entire life, legal, political, religious and spiritual. Each item I read left a lasting impression on me, but the book that has impacted my life to this very day, 40 plus years after I read it the first time, was a book entitled **The Essential Gandhi.**

Throughout that book, Gandhi tells story, gives a blow by blow account detailing what he called “**my experiment with truth**”. Gandhi, followed the Hindu Faith, and in carrying out his experiment with truth, he experimented with Hindu principles, doctrine, rules, etc., in conducting his experiment with the truths, rules spelled out in the ----- (the Hindu Bible).

As everyone knows now, his experiment with truth worked. Why? Because the non-violent resistance movement that he organized and mobilized based on principals contained in the ----- force the Grate Briton, one of the worlds most powerful nation states, to relinquish its power and authority of the Indian Sub-continent and leave its people free to govern themselves.

Gandhi’s successes with his experiment with truth caused me to employ his model when I decided to become a professional politician and make government and the governing process a career. However, instead of the -----, my spiritual guide book and implementation manual was the Judo/Christian Bible; with the Sermon on the Mount, serving as the blue print for my daily recipe cook-book.

Once I decided on conducting my own personal experiment with truth, I felt the need for a daily devotional, a devotional that I wrote that summarized my faith and belief in the truths that I applied from reading, studying and learning about living a faith based driven life that I would recite several times

Had God not been in the plan, I would be mystified by receiving that ranking. My reason for making that statement is this; A statically significant if not considerable number of those who made that list, were there as a result of thoroughly planned, detailed, well organized public relations operations. Thus, they frequently appeared on national and local TV and Radio programs, and benefited from endless column inches of copy in local and national general circulation newspaper, plus weekly and monthly magazines in practically every state in the union,

Not so in my case. First I should state that I am an active member of the Republican Party, and have functioned as such throughout my 50 plus years of high-profile political life. But, that's not all. As is stated above, I am recognized as the father of the nation's Affirmative Action **Enforcement** Policy.

Logic would suggest that during the 3 decade that the Affirmative Action has been in force, coupled with the progress that African Americans, Women and Hispanics have made, plus the skills they brought to the workplace that enhanced and strengthened the nation's workforce one would think that I would have been in demand as a presenter; especially given that I am considered a top rated motivational speaker one would think that the welcome mat would be out in every direction would turn. And that I would be in constant demand as a speaker. If that's your assumption not only are you wrong, but you are wrong by a mile. Why? Because nothing could be further from the truth.

The facts are, the Affirmative Action Enforcement Policy that I initiated presented a problem on both sides of the political aisle. Why? Because the democrats want to take credit from initiating that movement. But they can't. Again Why? Because I initiated it
