

Spencer/Bush/letter

Rather than writing a long letter, which I am prone to do, I am sending the enclosed information. These press clipping and letters will tell what I and a small team that I have assemble is doing to help No. 43, win re-election to a second term as our President.

I know I didn't tell you therefore I don't think you know that I am a licensed minister. That's the source of my motivational speaking skills. However, I have a edge on most ministers, and or motivational speakers. Why? Because I am a accomplished professional trainer as well. That gives me a big leg up with a audience and/or a class of trainees,

Why? Because from my prospective, rather than simply cram a student's head with a lot of general disjointed knowledge, information, etc., I do what crack trainers do. They demonstrate the value of the knowledge, by showing students what to do and how to apply the information. Thus, he changes a trainees outlook, behavior patterns, practices and finally expectations of themselves.

You may not know this, but during the 70s through the 90s, when not serving as a Presidential Appointee, in a GOP administration, I earned my living as workplace/workforce technical assistance trainer. I taught, director, CEOs, senior executives, managers and first line supervisors how to designed and implement policies, programs and practices that complied with workplace/workforce, statutes, rules,

regulations and guidelines that complied with federal, state, and local statutes that impacted here enterprises. My clients included some of the nation's top 20 Fortune 500 Firms, plus federal, state and local government agencies.

At the beginning of each training session I conduct I do the following; I inform the trainees that my mission is provide information and instructs in a manor that will cause them to do more than grasp the information I share with them. I insist that my goal is to cause them to change their outlook, behavior, and expectations of themselves as well.

Throughout the 3 decades that I have been in this business I do the following; I have those who attended seminar/workshops, that I have conducted complete a evaluation questionnaires when the course is over. My objective is to see if I accomplished by objectives on the one hand and on the other see if the trainees felt that the training accomplished that I committed to at the beginning of the session, and whether the trainees felt that their time was well spent. And the good news for me , is on every occasion, 95 to a 100 % of a training, indicate that I accomplish my objective every time.

Through the years, as a means of self-evaluation, I always require that each seminar/workshop trainee complete a evaluation questionnaire designed to determine the value of the training. Among other things the goal in doing this is the extent to which I accomplished my personal training objectives. It never fails that 98% to 100% of the responses written on these forms, indicate that the mission was accomplished.

Why was the above paragraphs included in this letter? The information is important because training is what I have been doing as well as what I intend to keep doing to enhance No.43, chances to win a second term when the 2004 national elections are held. However, along with facts about the endless flow of education, employment and small business, opportunities that the immediate and short term future holds in store for those who are qualified, race, gender, and ethnic origin notwithstanding the following will be included; 1) the Leave no Child Behind Initiative. 2) The Low and Moderate Income Home Ownership Programs and 3) The Faith Based Initiative. As to the latter, I am assuming that it will have become the law of the land before 2004 election season rolls around.

What do I expect the fall out to be from these efforts on my part. Before answering that question, I should add this; me and my small team of professional started test marketing our concept in January 2002. During that 9 month period we have appeared in the following communities; -----Virginia. York and Harrisburg Pennsylvania, North Carolina, Myrtle Beech, Columbia and Charleston South, Carolina, and Baltimore, Maryland.

We estimate that directly or in directly well over 3000 individuals, ministers, lay leaders, land owners, and church congregation members have attended and participated in these seminar/workshops. And via word of mouth conversation involving those who attended and participated in these session another 15,000 have heard about our training session. That adds up to a minimum of 18,000 altogether But that's not even half of the story.

Now that the word is out, the religious grape vine is telegraphing, or should I say E-mailing and Faxing the word about our efforts, the news is going from one community to the next and from one church congregation or group affiliation or christen denomination to the next. As of now where is the impact the greatest as of this writing ? The states that belonged to old confederacy. Blacks in those states own lots and lots of land.

Now comes the startling news. Within days after the completion of these seminar/workshops, I get a call after call from pastors in these areas (states) informing me that his congregation or an association, has acres and acres of land they would like to develop. The land they own appears to be ideal sites for a Low and Moderate Income Housing development.

The parcels in question are as small as 10 acres to a 100, to several hundred acres. They then add that they are more than willing to hire me to be their consultant so I can represent and guide them through the land development process. In most cases the land in question was deeded to the church by a deceased member of the congregation, or its owned by a member, or a family that belongs to the church the congregation. Regardless of how these churches came into position of the land it belongs to them and the title is free and clear, no liens, no back taxes, no lease agreements, etc. Incidentally the land they own is in rural areas, sub-burbs and urban center neighborhoods.

Now here comes the offer that overwhelms me. Before offering to deed their land to a LLC corporation that we will jointly own, I am told that a certain congregation hired a private investigator to check my background and the result indicated that I have 3 decade

stellar record as a public service and can be trusted to do the right thing where their interest are concerned.

Because that's a fact, both church congregations, congregational federations plus Christian families are willing, if not eager to deed their land to a LLC, that we both own, And then allow me to take the lead, in raise the money, and hiring a developer, who knows the various federal, state, country and municipal government housing programs to manage the process that will result in having their land developed for them.

Now number No. 41, here's where you come in. (see the attached self-explanatory irrevocable Pay order sent to be by Dr. W.H. Spencer) I have a wealthy African America client, who has billions of dollars to invest in these projects, that is provided he can -----in this country. His name is ----- He has informed me that he has a inter-bank Chip account in which he has billions of dollars. As of this writing he has ask me to assist him in getting \$10 billion released from that account so he can invest it in this country.

And for my services he's prepared to put \$300 million in a special account for me to use to finance the housing development opportunities now before me, plus those that will keep coming my way the minute the word is out that I have the capacity to do the whole things. If I can succeed in getting his money released from that account so he can invest it in this country, where I am concerned there will be no looking back.

Incidentally the Chip-account in question, is deposited in Chase Manhattan Bank. I point that out because I am told that you own a considerable amount of Chase Manhattan's Stock.

As you know my friend, I have spent a my years on the national scene, doing my bit to help the country or engaged in some cause that will enhance the quality of life for others. That's why if something happened to me, we Bernyce and I are a mere 90 days from bankruptcy and foreclosure on everything we own.

By the way, given that I'll be 78 years of age, when my next birthday arrives, Dec.22,2002, I have no need for the full \$300 million. But I do have several charitable projects, that I'll use a considerable amount of it to jump-start and underwrite several charitable projects that I conceived and am eager to jump-start. They are each 501-C3 Non-profit corporations that will be of value to the nation as a whole, young adult generations currently in the workforce and small business arena, plus generations yet unborn.

The first, the holding company is called FRIENDS OF AMERICA'S FUTURE, the second is HUMAN CAPITAL DEVELOPMENT TRUST FUND, is a organization devoted to developing and sustaining a never ending supply of quality human capital, and the third is a MINORITY AND WOMEN ECONOMIC DEVELOPMENT LOAN GUARANTEE FUND.

Don't be surprised at my focus on education and minority and women economic development opportunities, Nothing has changed. Although it was 32 years ago, these

factors had a prominent place in the speech that I wrote and delivered to The Committee on the Elimination of all forms of Racism, when I was a US Delegate to the 26th Session of the United Nation's General Assembly. (see attached)

George, the late Red Fox would say "*this is the big one*" I had hoped would come before my *my life's journey ended*. In all my wildest imagination, I never thought that American's religious community as a whole and its Black Religious leadership in particular, would turn to me "a so-called high-profile Black Republican", to assist them in shaping and perfecting their desires to fulfill their respective congregation's Housing needs. For this to come my God has to be calling the plays. Its his play book and His game plan and He's calling the plays. As the brothers would say, to cause this to happen to my in the sudden death period of my life time, He's proving that he's still in charge and He's working his Mo-Joe in His mysterious ways.

The \$300,000,000 that I am to receive for satisfying Dr. Spencer's needs. Will enable me to self finance, each of the projects mentioned above. In other words, I wont have to waist time writing winning proposal. I'll simply fund these projects myself. Thus, if you can help me pull this one off, along with being another if not the final crowing achievement in life, work, it will position me to do my best to assure that No. 43, gets full credit for his for low and moderate breadwinners, household bread program. He'll get credit for lifting a mere dream from the drawing boards, to a tangible practical reality during the life of his administration, I'll make that point in each of the 36 communities mentioned above.

Now comes the startling news. Within days after the completion of these seminar/workshops, I get a call after call from pastors in these areas (states) informing me that his congregation or an association, has arcs and arcs of land they would like to develop. That last phase "everywhere I go" is pertinent. Why? Because before the 2002 national election, I am planning to have local church congregations sponsored neighborhood level Faith Based Initiative Seminar/Workshop, in 36 communities across the country. I am deliberately selecting communities that house Federal Reserve Board Regional or District Banks.

In implementing our marketing plan, one of the goals is to assure that we have media coverage, at the saturation level, everywhere we appear. If it proceeds as planned No 43, will get marks that will go off the charts for his, *Leave no Child Behind, Low and Moderate Home Ownership and Faith Based Initiatives.*

My plan calls for hitting the ground running when January 1, 2003 arrives. That's a little more than two months away. If that to happen time is of the essence. So, please let me hear from you on this matter, ASP.

Respectfully

Art Fletcher.

The attached long letter from me is about, the attached Irrevocable Pay Order, extended to me from Dr. W.H. Spencer. As it states, He was to use \$10,000,000,000.00 that he has in a Inter-bank Chip Account in a European Bank. However, as of this writing he's unable to do so. Therefore, He's offered to pay me \$300,000,000,00. if I can assist him in this matter.

My willingness to help him stems from the fact, that I have several 501-C3, non-profit Faith Initiatives projects that I want to launch, sustain and devote the rest of my working life to.

The \$300,000,000,00 that Dr. Spencer, has agreed to pay me, as compensation for my services, will do the following; Enable me to fund the projects I have in mind the very minute the money is deposited in the account mentioned in his Irrevocable Pay order.

Thus I'll be independently wealthy, too, Therefore, I wont have write dozens of proposals every year and go "ten-cup" in hand, begging and hoping some charitable foundation or wealthy philanthropist will fund my dreams for me. With \$300,000,000,00 available in my account, I'll to fund and sustain the charitable projects I want to devote the rest of my life to myself.
