thomas. the way to facilitate that exchange is for the following to occur.

in the bush interview, ike and you thomas explain the relationship you as posse members have to dr. michael porter of the hbs and of icic as a segue way to, and in anticipation of, a leading question to get to the pressure point. you drop this, for instance...

Q?...from the posse...Gov? Are you aware of Michael Porter of the HBS and his ICIC program?[icic is tapping lucrative opportunities in the inner city and we would like to have you and dr. porter communicate] this leads into a line of information which suggests how a focused inner city or low moderate income zip code private sector investment policy/strategy--in which ICIC specializes, and which the UK has now adopted--can yield both job and wealth creation in the urban centers of Florida, ie., in Liberty City, in East Tampa, south Saint Petersburg; and, of course, taht Ike and you all can help facilitate such a dialogue on the matter. How can he refuse this offer of bringing such a resource to the Florida table as a precedent of expanding this strategy across the nation over the next 2 years? Of course then, you offer the Tantulus grapes, vice versa to Porter, helping the Governor of Florida understand his conceptual paradigm for inner city investments with Doctor Fletcher supporting the notion. Then you're in Fort Knox, my brothers. Hey!!! Once you conduct the "moot" interview with Denver; then you in a correspondence to Denver proffer them(office of the Governor)to avail the expertise of Dr. Porter to the Governor's staff responsible for such things(to Dr. Pam Dana) { } who is the Director of the Office of Tourism Trade and Economic Development and, to Ms. Glenda Hood, [], she is the former Mayor of Orlando, and the newly appointed Secretary of State(and she is now responsible for creating and fostering economic diversification and community development by encouraging private/public partnerships). Ike can, holding out the Porter connection as an inducement, meet with those individuals when he is here in Tallahassee(the offer to meet with Dr. Dana and Glenda Hood should come in his correspondence to Denver after he conducts the "moot" interview). He then interacts with the Governor's buffers(he should suggest his trip to the Hassee is principally to meet these individuals, not Romy)and establishes the protocol for the Bush Porter tete a tete.
